

Summer Reading 2007

Summer reading is a vital part of the educational growth of children. This reading should be pleasing as well as challenging for students. The purpose of our summer reading program is to keep students reading and learning. Required reading books are to be read at anytime during the summer months. Teachers will use these books as lesson material throughout the school year. Therefore, it is highly recommended that students have their copies of the required books. Enjoy this valuable time reading with your child. Happy reading!
